Mr. Troy Wade II
Deputy Assistant Secretary for
Defense Programs
Department of Energy

Troy:

Number 1: Congratulations on your appointment to the Idaho Operations Office. I'm envious on two accounts--the distance from Washington and the beauty that that state offers. If you like to hike and fish you will be in seventh heaven.

Enjoyed your contribution to the NFIB process and intelligence panel. While indeed over the years DOE, in going through its various mutations, may have suffered somewhat organizationally, the intelligence process did prevail and you should be justifiably proud of that accomplishment.

All my best. Would welcome any excuse to visit you.

Sincerely,

John N. McMahon

Mr. John N. McMahon
Deputy Director of Central Intelligence
Central Intelligence Agency
Washington, DC 20505

Dear Mr. McMahon: *John*

As you know, Secretary of Energy Donald Paul Hodel has appointed me Manager of the Department's Idaho Operations Office. As such I will be responsible for nuclear R&D sponsored by DOE and NRC, but for the first time in 25 years I will be on the periphery of the nuclear weapons community and the intelligence community.

I have enjoyed my last 18 months in Washington, to include the privilege of serving as DOE's alternate SIO, and my associations with NFIB, NFIC and the Nuclear Intelligence Panel. Hopefully Herm Roser and I have been somewhat successful in getting the DOE intelligence act together.

If I can be of any assistance to you from the west, please don't hesitate to call. Please give my regards to Mr. Casey.

Sincerely,

A handwritten signature in cursive script, appearing to read "Troy".
